

CEER Workshop

Gas Target Model

View of local energy companies

Joost Gottmer

CEDEC

CEER | 28th June 2011 | Brussels

- CEDEC supports the development towards a single European market
- CEDEC advocate and integrated approach for the creation of the European market
- CEDEC point out that the relations between the stakeholders at legal, technical and economical fields are complicated
- CEDEC is convinced that it requires a widely accepted and thorough understanding of the markets and allows for enough time to change
- CEDEC would like to stress that developments should create a level playing field
