

CEER hearing on the draft advice on the take-off of a demand response electricity market with smart meters

Marielle Liikanen

Brussels

2nd September 2011

Customer Protection

- Customer trust in market functioning with smart metering and demand response
- Market monitoring
- Do you see a need for extra measures in this area?

National Point of Contact and Privacy & Security

- National point of contact for information on metering data
- Is there a need for such a national point of contact? Which stakeholder should be responsible for this?
- Privacy & Security
- Do you see a conflict between issues of privacy and security of data with regards to demand response?

The background of the slide is a light blue gradient with a faint, semi-transparent image of a high-voltage electricity pylon on the left and a gas burner with blue flames on the right.

Thank you for your attention!
