

CEER 2013 Draft Work Programme

Lord Mogg

CEER President

CEER-ACER lunch time presentation, Brussels,
11 July 2012

Regulatory cooperation at European level

Europe's energy regulators:

- work **cooperatively on energy market and regulatory issues**
- apply a **complementary approach to energy regulation in Europe**
- Regulators **provide resources** to developing ACER and CEER deliverables

Summary of the WP process

The background of the slide is a light blue gradient. On the left side, there is a faint, semi-transparent image of a high-voltage electricity pylon. On the right side, there is a faint, semi-transparent image of a gas stove burner with blue flames.

CEER 2013 Draft Work Programme

CEER's objectives

- Broad vision of Europe's energy landscape both within and beyond EU borders (31 NRAs)
- Promotion of European objectives for the achievement of an internal market
- Addressing a wide range of regulatory and market issues

CEER priorities in 2013

1. Customers
2. Development of competitive wholesale and retail energy markets
3. New legislative/policy developments
 - Sustainability
 - New Infrastructure
 - Market Integrity
4. International work

- In 2012, CEER launched initiative to build **“2020 vision for Europe’s energy customers”**
- During 2013, plan to implement our action plan and address specific issues, including:
 - Data management
 - Involvement of consumer orgs. in regulatory process
 - Smart metering
 - Customer access to info on the costs of energy

Development of competitive wholesale and retail energy markets

- ACER addresses aspects of EU wholesale markets
- CEER complements ACER in certain areas, including monitoring market developments (LNG, gas transparency, TSO/DSO unbundling, customer rights) and addressing technical aspects of energy:
 - Quality of electricity supply
 - Blackout prevention
 - Flexibility tools for markets with RES
 - Incremental capacity auctions and open seasons for gas infrastructure

New legislative/policy developments

- Regulators are committed to powering the EU energy debate and to serving as valued partners to the European Institutions in shaping energy policy and legislative proposals, in particular on:
 - Sustainability
 - New Infrastructure
 - Market Integrity

International work

- CEER has longstanding relations with non-EU regulators:
 - Bilateral ties (e.g. Russia and US)
 - Regulatory associations (e.g. ECRB, MEDREG and ICER).
- Regulators will continue strengthening the cooperation of CEER with these and other institutions

Next steps

- Consultation closes 30 July 2012
- CEER will review comments and update the WP, drawing from:
 - 21 June Customer Conference and feedback to Vision discussion paper (deadline 16 July)
 - WP consultation feedback
 - Internal considerations and developments, including the availability of expert resources
- Publication of final CEER and ACER 2013 WPs in October 2012

Thank you for your attention!
