The „Live Stream"
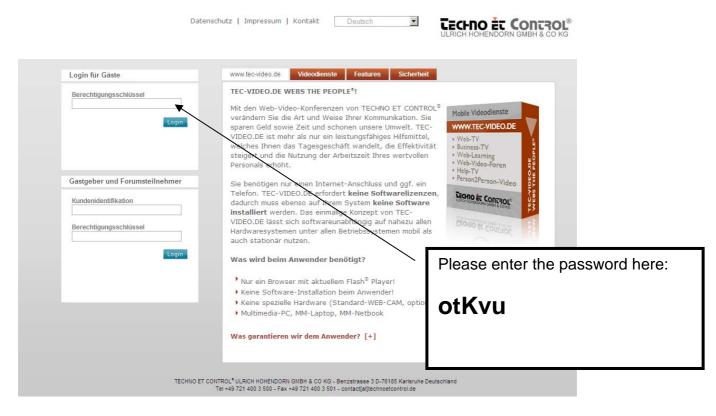

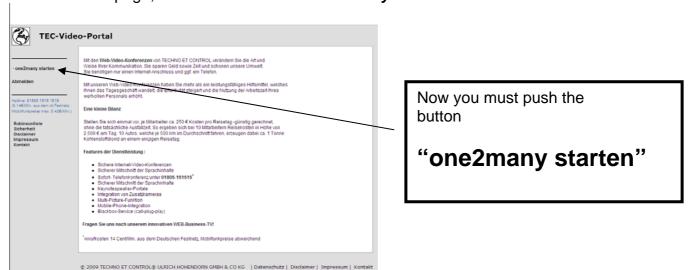

1. Please check that the latest version of free "Adobe Flash Player", 10.2.X has been installed on your computer.

2. Start "Internet Explorer" and go to the website:
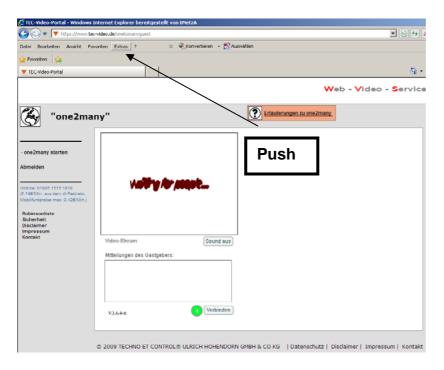

www.tec-video.de

The following start screen will be loaded (unfortunately only available in German).
Use the following **password** for the Login-procedure: otKvu

3. On the next page, **click** on the **button "one2many starten"**

4. Click on the **"NO" button in case of a warning message.**

- Please confirm that the webpage is marked as "trustable site" under your browser settings.
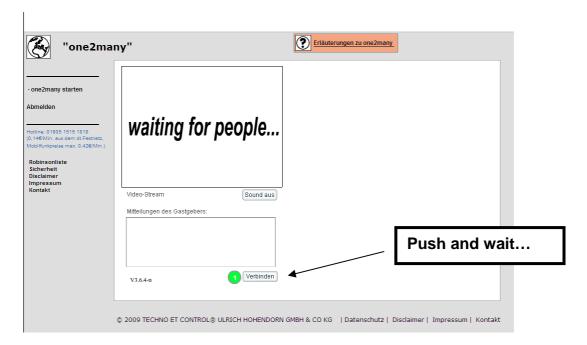

Push

Push

+ Add site and press "OK"

5. Finally you will see the following page

6. Push "Verbinden" for connecting…

In the window above you can watch a "live stream" of the Target Model Gas workshop in Bonn

In the window below you can read messages posted by the host.
