

This course enables Commissioner-level and senior-level staff of National Regulatory Authorities (NRAs) to reflect on their NRA's role and effectiveness with the implementation of the "Clean Energy for All Europeans" Package and the European Green Deal and on how they regulate.

This intensive and exclusive one-day online programme provides a unique opportunity for participants (Commissioner-level and senior-level NRA staff) to learn and exchange views on the implementation of the new regulatory framework under the "Clean Energy for All Europeans" Package and the European Green Deal, on what dynamic regulation means and why regulators need to pursue dynamic regulation in times of change. The programme offers a first-hand opportunity to learn from fellow senior regulators, policy-makers and energy actors who are directly involved in energy regulatory policy development and implementation.

**Tuesday, 16 November 2021
10:15-17:00 CET**

10:15 – 10:45 **Welcome and Introduction
of the course, the online format and the participants**

Ms Annegret Groebel | BNetzA, CEER President

SESSION 1 **IMPLEMENTATION OF THE NEW REGULATORY FRAMEWORK**
Chair: Ms Annegret Groebel

This session offers a debate on public policies, regulatory policy and how to implement the new regulatory framework. The roles of the major actors involved in the European energy policy development, the decision-making processes at the EU level, the roles and challenges for NRAs in ensuring the effective implementation of the new regulatory framework will be discussed.

10:45 – 12:15 **Public policies, regulatory policy and implementation of the new
regulatory framework**

- a) New modes of governance in the European Union
- b) Public policies and regulatory policy

- c) Why regulators need a clear and well-structured regulatory strategy for the energy transition
- d) How to be an effective energy regulator in implementing the new regulatory framework.

Mr Oliver Koch | European Commission, DG ENER
Ms Alexis Durand | Organisation for Economic Cooperation and Development (OECD)

Questions and Discussion

12:15 – 13:15 *Lunch break*

SESSION 2 VIRTUAL MEETING WITH THE EUROPEAN COMMISSION

As the initiator (and enforcer) of EU policy and legislation, the European Commission (EC) is a crucial counterpart for energy regulators and the EC values having strong contacts with NRAs (collectively and bi-laterally). We will have a virtual meeting with key senior contacts at the EC's Directorate General for Energy and exchange views on the State of the Energy Union, the European Green Deal, the revision of the TEN-E Regulation, the Offshore Energy Strategy, the "Fit for 55 Package" and upcoming legislative proposals such as the Gas Market Decarbonisation Package and the challenges and chances for NRAs.

13:15 – 14:30 **Virtual "WHO IS WHO" meeting with the EC staff**

Ms Catharina Sikow-Magny

Director ENER.C – Green Transition and Energy System Integration

Mr Antonio Lopez-Nicolas

Deputy HoU ENER.C.1 – Renewables and Energy System Integration Policy

Ms Kitti Nyitrai

HoU ENER.C.2 – Decarbonisation and Sustainability of Energy Sources

Mr Christof Lessenich

HoU ENER.C.3 – Internal Energy Market

Ms Anca-Iulia Cimpeanu

Deputy HoU ENER.C.4 – Infrastructure and Regional Cooperation

Mr Oliver Koch

Deputy HoU ENER.A.5 – Planning and Legal Affairs

Ms Adela Tesarova

HoU ENER.B.1 - Consumers, Local Initiatives, Just Transition

14:30 – 14:45 *Break*

SESSION 3 DYNAMIC REGULATION

Chair: Ms Annegret Groebel

One of the core elements of CEER's 3D strategy from 2019 to 2021 is dynamic regulation. This session focuses on dynamic regulation and engages participants in a useful exchange on issues such as ensuring regulation anticipates and, as appropriate, adapts to market evolutions, how to regulate an industry/network with potentially continuing reduced energy volumes and more intermittent sources, how to move from static regulation to more dynamic regulation and how to regulate infrastructure for different purposes. This session will also address the longer term impact of the coronavirus crisis on regulation and possibly lessons learnt.

14:45 – 16:00 Regulating an industry with continuing decreased sales and regulating existing infrastructures for different purposes. Regulating the multi-sector, multi-level energy architecture, regulating an energy system with a growing share of renewables, how to ensure the system becomes flexible.

Following an overview of relevant CEER work on dynamic regulation, practical examples/lessons learned from countries/other sectors will be presented and discussed:

CEER work on dynamic regulation and webportal

Ms Nadia Horstmann | BNetzA and EPU/RBM Chair

Case study of CRE's sandbox regulation

Ms Natalia Baudry and Mr Guillaume Magnien | CRE

Case study on Italian pilot regulations and regulatory experiments

Mr Luca Lo Schiavo | ARERA

Questions and Discussion

16:00 – 16:15 **Transitional regulation and the assessment of regulatory delivery in energy transition processes**

Mr Jorge Vasconcelos | Chairman of New Energy Solutions, Member of CEER Training Academy Advisory Board

Questions and Discussion

16:15 – 16:45 **Roundtable discussion with the speakers and participants**

Ms Annegret Groebel | BNetzA, CEER President

16:45 – 17:00 **Wrap-up of the seminar**

Ms Annegret Groebel | BNetzA, CEER President
