

SERIES ON REMIT IMPLEMENTATION - MODULE 2

ONLINE TRAINING

**Specialised Training on REMIT
and REMIT Enforcement**

22 November 2022

CEER
Council of European
Energy Regulators

Level B: Specialised Course

Target participants: NRA staff who have completed Module 1 of the CEER Series on REMIT Implementation or have 2 years of experience in REMIT Implementation.

NRA staff need expertise to carry out monitoring activities of the wholesale energy markets at national level according to REMIT. As part of this, NRA staff need to understand REMIT's provisions as well as market abuse behaviours, investigation and enforcement procedures, interactions with financial market regulation and anti-trust regulation. This will help to facilitate effective cooperation to ensure compatibility and consistency in the application of measures dealing with potential market abuse and their enforcement in energy markets.

This online course is designed for NRA staff who already have some experience in REMIT implementation and market monitoring but want to enhance their expertise and knowledge in order to carry out the new demanding tasks required under REMIT. The participants who have completed Module 1 of the CEER Series on REMIT Implementation or have 2 years of experience in REMIT Implementation are encouraged to attend.

Tuesday, 22 November 2022
09:00-13:15 (CET)

09:00-09:30 Opening remarks, introduction of the participants and the programme

Ms Annegret Groebel | CEER President, Chair CEER MIT WG
