

CEER Workshop

Removing LNG Barriers in the EU Gas Market

Athens, 12 September 2016

European Federation of Energy Traders

**Market development:
improvements in LNG
market design**

Giuseppina Squicciarini

Security of Supply WG,

Gas Committee

**European Federation of
Energy Traders**

- **Utilisation of LNG terminals in the EU: no ex ante target; the decision should be left to the market**
- **The EU market is attractive to LNG; the completion of the Internal Energy Market, efficient use of existing infrastructure and greater interconnectivity where needed would make it even more attractive.**
- **No support for separate LNG hub or price reference for LNG.**
- **Access conditions generally work.**
- **Adequate access to downstream market and removal of barriers is crucial to attract LNG.**
