TPC Group| 01/06/2010

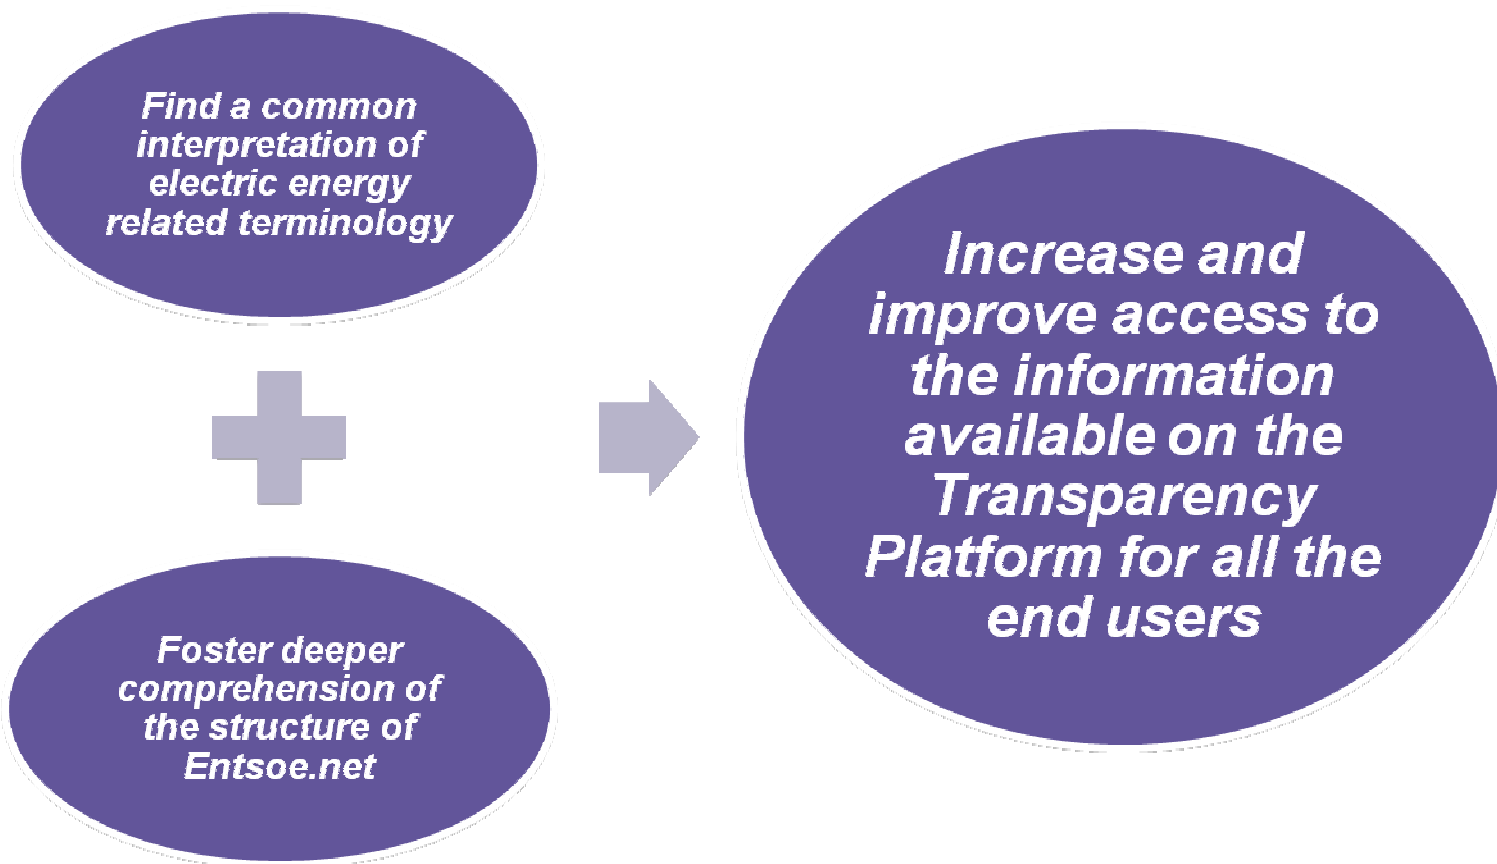

## ***Index:***

- *Glossary – Review and Update of current document.*
- *Business Requirements Specification ( BRS) – Review and Update of current document.*
- *Final Conclusions and latest decisions taken within the TPC Group.*

- *Aims*
- *Starting point and issues encountered*
- *Overcoming the issues*
- *Q&A*

## Glossary update – Aims:

## *Glossary review and update: Overcoming the issues*

### Starting Point (Issues encountered)

- Glossary in alphabetical order
- Gap analysis between Glossary and web site structure to identify discrepancies
- Need to clarify and up-date the definitions contained

### Overcoming the issues

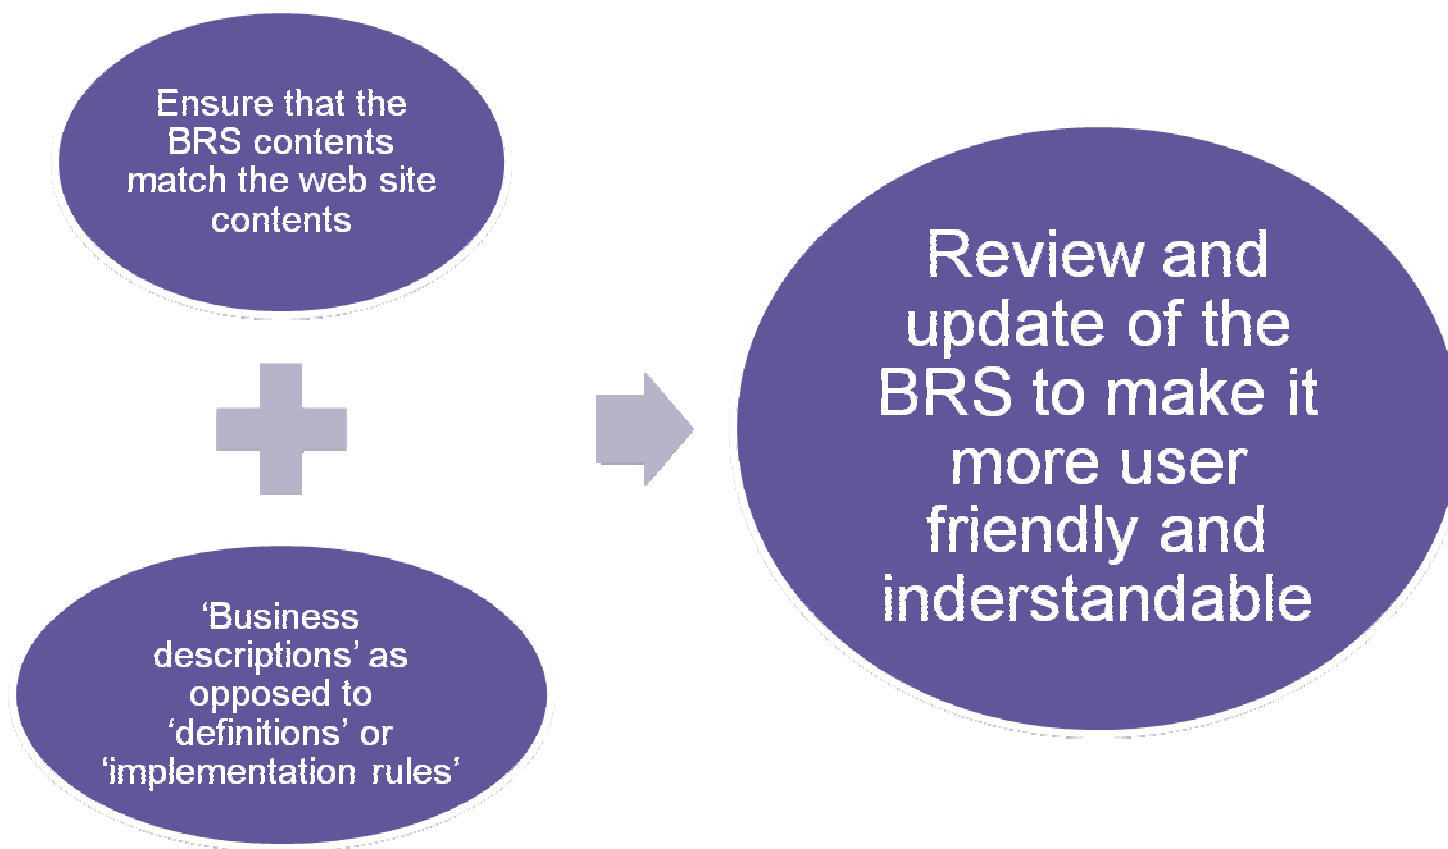

- Document restructuring: definitions follow web site structure
- Updating of the definitions: comparison with other definitions documents

### Finalization

- Issuing of the Change Request
- Uploading of the new glossary

## BRS update – Aims:

## *BRS review and update: Overcoming the issues*

### Starting Point (Issues encountered)

- Gap analysis between BRS and web site to identify inconsistencies
- Existing BRS analysed in respect of business descriptions, implementation guide and definitions

### Overcoming the issues

- BRS to be updated to match the data/ functionalities on the existing web site.
- Updating business descriptions so as to make them consistent with other documents and sources

### Finalization

- New draft of BRS needs to be implemented
- Business descriptions within the BRS need to be cross referenced with Definitions, Standards, Glossary and Implementation Guide.

# Conclusions
