 Agency for the Cooperation  
of Energy Regulators

## Capacity Allocation and Congestion Management & Network Codes

***Alain Marien***

Co-chair, ACER Electricity Networks and Markets Task Force

**Florence Forum**

**20-21 November 2012**

## **Agenda**

- 29 July 2011: ACER adopted CACM
- 27 September 2012: ENTSO-E submitted CACM NC to ACER
- December 2012: ACER reasoned opinion (target: BoR - 4 December)

## **Main issues: potential areas of non-compliance**

- Coordination of the capacity calculation methods
- Description of the capacity calculation methods
- Bidding zone review process
- NRA involvement (approval & amendment of rules)
- Coordination for redispatching /countertrade
- Cost recovery
- Timing of implementation

## **Other important issues**

- **Governance**
  - Only partially addressed in the CACM NC (references)
  - Further work needs to lead to a consistent outcome
- **Interaction with Regulation 714/2009 (Annex)**
  - Contradicting elements should be identified
  - (Legal) clarity needs to be established (coordination, timing...)

**ACER**
