## Why attend CEER Training Courses?

“ *Good regulation requires energy regulators to have both the powers and resources to carry out their work effectively. Capacity building and investing in professional development are powerful tools to strengthen regulatory performance.*

**Garrett Blaney, CEER President**

The CEER Training Academy's courses deliver job-related skills for staff of regulatory authorities across all levels, from introductory to advanced. Our modular approach in designing the course programme supports over time the development of professional expertise in energy regulation, covering wholesale market, network and retail/consumer issues. Designed around European experience and practices, the courses also allow for the sharing of regulatory experience and approaches more broadly.

Our lecturers come primarily from the regulators and also include international institutions, academia and energy industry professionals. The course programme is advised by distinguished members of our Training Academy Advisory Board, comprising senior representatives from the European institutions, academia, energy industry and former regulators.

The CEER Training Academy programme is built around three key features:

- 1 PRACTITIONER METHOD**  
Practical topics relating directly to energy regulation for on-the-job and professional development
- 2 REGULATOR-CENTRIC**  
Designed and led by regulators for regulators, with exclusive access to leading experts in the energy sector
- 3 COLLABORATIVE ATMOSPHERE**  
Exchange views and learn from peers in the regulatory community from across Europe and beyond

## Participants' Testimonials

“ *The training impressed me. I gathered so much new knowledge, information and learning.*  
One participant of the Legal Training on Evolving Regulatory Processes in European Energy Policy 2017.

“ *It was interesting to hear what is done in this area across Europe. This helps us improve what we are doing in our country and gives us ideas for new directions to take.*  
One participant of the Training on Network Incentive Regulation and Benchmarking 2017.

### IN 2017

**11**  
CEER TRAINING COURSES

**191**  
STAFF TRAINED FROM 31 ENERGY REGULATORS

**124**  
LECTURERS FROM 19 COUNTRIES

**86%**  
PARTICIPANT COURSE SATISFACTION

## What are CEER's 2018 courses?

Topic	Level *	Type of training	2018	Course Fee for CEER members/observers	Course Fee for non members/observers
<b>SERIES ON REMIT IMPLEMENTATION **</b>					
 <b>Module 1:</b> Introduction to EC Regulation on Energy Market Integrity and Transparency (REMIT)	A	Blended training (on-site and online)	6-7 February	€ 960 or 2 training credits	€ 1,200
<b>Module 2:</b> Specialised Training on REMIT and Links to Financial Markets	B	Blended training (on-site and online)	28 November	€ 480 or 1 training credit	€ 600
