*Subject: request for amendment on all TSOs' proposal for common settlement rules applicable to all intended exchanges of energy as a result of the reserve placement process, frequency restoration process with manual and automatic activation and the imbalance netting process pursuant to Article 50(1) of Commission Regulation (EU) 2017/2195 establishing a guideline on electricity balancing*

Dear Mr Schmitt,

I write to inform you on behalf of all Regulatory Authorities regarding to the proposal for a methodology for the TSO-TSO settlement of the intended exchanges of energy as the result of the reserve replacement process, frequency restoration process with manual and automatic activation and imbalance netting process in accordance with Article 50(1) of the EBGL (hereafter: the Proposal).

The last Regulatory Authority received the proposal on 11 February 2019. Article 5(6) of the EBGL requires relevant Regulatory Authorities to consult and closely cooperate and coordinate with each other in order to reach an agreement and make decisions within six months following receipt of submissions of the last relevant Regulatory Authority concerned. A decision is therefore required by all Regulatory Authorities by 11 August 2019.

The enclosed document, dated 23 July 2019, elaborates an agreement of all Regulatory Authorities to request an amendment to the Proposal. This agreement of All Regulatory Authorities shall provide evidence that a decision on the Proposal does not need to be adopted by ACER pursuant to Article 5(7) of the EBGL. However, at the same time the Proposal is not approvable by all Regulatory Authorities. Therefore, this agreement is intended to constitute the basis on which all Regulatory Authorities will each subsequently request an amendment to the Proposal

All Regulatory Authorities have agreed to issue their national decision to request an amendment to the proposal on the basis of this agreement by 11 August 2019.

Yours sincerely,

Clara Poletti  
ERF Chair
