

### **ERGEG Letter to storage users**

# Monitoring of the implementation of the Guidelines for Good Practice for Gas Storage System Operators (GGPSSO)

#### Introduction

The Guidelines for Good TPA Practice for Storage System Operators (GGPSSO) set out the minimum requirements for the provision of fair and non-discriminatory access to gas storage (in accordance to the Gas Directive<sup>1</sup>). Monitoring implementation of the GGPSSO is therefore important in understanding how access to gas storage is being provided.

The European Commission requested the European Regulators Group for Electricity and Gas (ERGEG) to monitor the implementation of the Guidelines and report back to the next Madrid Forum on their findings

This paper seeks views from storage users – be they actual storage users or potential storage users - on how the GGPSSO have been implemented by storage system operators (SSOs).

#### Invitation to comment

ERGEG is committed to open and transparent consultation. The GGPSSO were developed through consultation over a number of months. ERGEG has already sent out questionnaires in order to collect information from EU Storage System Operators (SSOs) and National Regulatory Authorities (NRAs). These questionnaires are published on the ERGEG website Please note that responses to the questionnaires will also be published on the ERGEG web site at the end of June.

At this stage of the process, ERGEG would like to consult users, since they are actively participating in the storage market and therefore should provide the best insight as to whether and how the GGPSSO have been implemented or its provisions circumvented. Accordingly, ERGEG has prepared a list of questions for users.

<sup>&</sup>lt;sup>1</sup> Directive 2003/55/EC of the European Parliament and of the Council concerning common rules for the internal market in natural gas and repealing Directive 98/30/EC

The results from the monitoring process will be crucial in identifying the effectiveness of TPA to storage and areas where the GGPSSO may be improved. Your response to this questionnaire is therefore important to the development of the EU regulatory framework.

Any responses should be received by 25 July 2005. They should be sent to:

#### Pierre-Marie Cussaguet / Claude - Albane Swanson

Commission de Régulation de l'Energie

Direction du Gaz

2 rue du Quatre-Septembre

75084 Paris Cedex 02

France

rcarnevalini@autorita.energia.it

dgiorgi@autorita.energia.it

To help ensure transparency, responses to the questionnaire and other documents associated with the GGPSSO will be published by placing them on the ERGEG website (<a href="http://www.ergeg.org">http://www.ergeg.org</a>). ERGEG will take into account any requests to keep information confidential. ERGEG encourages you to separate confidential information from information you are willing to be made public.

Any questions on this document should in the first instance be directed to Pierre-Marie Cussaguet and/or Rosita Carnevalini (see addresses/email above)

ERGEG intends to publish an initial report on the implementation of the GGPSSO in September 2005, and it expects to present these findings at the next Madrid Forum – therefore, ERGEG intends to issue a final report on implementation after it has an opportunity to consider responses to its initial report and the views of delegates at Madrid

#### Section1: open background questions

The objective of the monitoring of the GGPSSO is to find out whether and how the GGPSSO have been implemented. Questions addressing the actual compliance with the GGPSSO are presented in Section 2. However, the monitoring should also provide an overall view of the effectiveness of the GGPSSO. Therefore, the questions presented in Section 1 are designed to assess **how** the GGPSSO have been implemented and in particular whether the GGPSSO could be improved.

1.1 Do you believe implementation of the GGPSSO by SSOs has been effective?

EM does not have information on the overall level of the implementation of the GGPSSO by SSOs. According to our experience in the German gas market the GGPSSO have been implemented effectively.

1.2 Apart from storage services, do you have sufficient access to other sources of flexibility in order to meet your commercial needs (e.g. hubs, production flexibility, import flexibility, long-term contracts, balancing market)? Can these other sources of flexibility be considered as effective substitutes to storage?

The majority of flexibility services required by EM are for production purposes. These flexibility services are provided by dedicated storage facilities.

1.3 Please indicate if the adoption of the GGPSSO has had a positive impact on TPA services (GGPSSO requirements on "Necessary TPA services", chapter 3)?

EM does not have information on the overall impact of the implementation of the GGPSSO. We are of the opinion that TPA services we have purchased are well designed.

1.4 Please indicate if the adoption of the GGPSSO has had a positive impact on storage capacity allocation/congestion management procedures (GGPSSO requirements on "Storage capacity allocation and congestion management", chapter 4)?

EM does not have information on the overall impact of the implementation of the GGPSSO. We have not experienced any difficulties with regard to storage capacity allocation/congestion management procedures in Germany.

1.5 Please indicate if the adoption of the GGPSSO has had a positive impact on transparency. Would you say that as a user, you are provided with sufficient and timely information in order to gain effective and efficient access to storage facilities? What data would you like to see published? Why would you need this additional information (GGPSSO requirements on "Transparency", chapter 6\?

EM does not have information on the overall impact of the implementation of the GGPSSO but we have experienced an increase in data publicly available. We have not identified a need for additional data to be published.

	ERGEG Letter Storage users – 2005-06-08
.6	In nTPA, if the main commercial conditions including the prices for standard services are published, is there consistency between your contract and these published conditions (GGPSSO requirements on "Tariff structure and derivation", chapter 7)?
	Yes.
7	Please indicate if the adoption of the GGPSSO has had a positive impact on secondary trade of storage capacity (GGPSSO requirements on "Secondary market", chapter 9)
	EM in the past has not experienced any commercial or contractual barriers to secondary capacity. However, we are of the opinion that implementation of bulletin boards helps to simplify secondary capacity trading.
.8	Do you believe that there is a conflict between the requirements of the GGPSSO and national legislation that will materially affect either your interests or your ability to comply with the GGPSSO (GGPSSO Scope and Objective)? Please specify the nature of such conflict
	We do not see any conflict between the requirements of the GGPSSO and the national legislation.
"9	If you have entered into a new storage contract after the adoption of the GGPSSO (18 March 2005), do you believe that there is a conflict between the requirements of the GGPSSO and certain clauses of your contract (e.g. publication of certain data, day-ahead release of non-nominated injectability and deliverability)? Please specify the nature of such conflict
	n.a.
.10	Do you believe there are gaps in the GGPSSO? How could the effectiveness of third party access to storage be improved?

2 Section 2: monitoring of the implementation of the Guidelines for Good Practice for Gas Storage System Operators (GGPSSO)

These questions are designed to monitor implementation of the GGPSSO requirements due to be implemented from 1 April 2005.

If you are a customer/potential customers of several SSOs, the questionnaire should ideally be completed for each SSO

#### General

2.1	Business name of respondent:	ExxonMobil	International	Limited	on	behalf	of	ExxonMobi
	Gasmarketing Deutschland	GmbH & Co Ki	G					

#### 2.2 Please specify if you are (several answers possible):

	tick
(a) a production company	
(b) a supply undertaking	
(c) a wholesale customer	X
(d) a trader	
(e) a TSO	
(f) a DSO	
(g) a final customer	
(h) other (e.g. local utility, distribution company, retailer including public services)	

#### 2.3 Please specify if you are:

(a) part of the same vertically integrated undertaking as to the SSO to which this questionnaire applies

(b) a company with no relationship whatsoever with the SSO

Remarks: ExxonMobil Gas Marketing Deutschland GmbH is a 100 % ExxonMobil affiliate whereas BEB Speicher GmbH & Co KG is a 50 % ExxonMobil affiliate and a 50 % Shell affiliate

	yes	
	Х	
Please provide the name/country of the SSO you are a customer of and to whice applies  BEB Speicher GmbH & Co KG	ch this que	stic
Do you own storage capacity rights in this storage system (date of reference: 1	April 2005	)
	yes	
	Х	
Please specify if you experienced any refusal of access in this storage system	yes	1
(a) before 1 April 2005	yes 🗆	
	yes	
(a) before 1 April 2005 (b) after 1 April 2005  f the answer is "yes", what were the reasons for the refusal of access?	yes 🗆	
(a) before 1 April 2005 (b) after 1 April 2005	yes 🗆	
(a) before 1 April 2005 (b) after 1 April 2005  f the answer is "yes", what were the reasons for the refusal of access?	yes	c.k
(a) before 1 April 2005  (b) after 1 April 2005  f the answer is "yes", what were the reasons for the refusal of access?  n a	yes	
(a) before 1 April 2005  (b) after 1 April 2005  f the answer is "yes", what were the reasons for the refusal of access?  In a  For the SSO you are a customer of, please indicate if:	yes	

<u>Roles and responsibilities of Storage System Operators</u>

2.17	What is the timeframe for solving capacity booking requests (based on your experience) (GGP	SSO
	3.9)?	

As an existing customer that meets the creditworthiness criteria, new requests are handled within 10 working days lead time

2.18	What is the timeframe for solving of	her requests (please s	pecify) (GGPSSO 3.9)

In dependence of the request usually within 10 working days

2.19 Does the SSO respond in a time frame compatible with your reasonable commercial needs (GGPSSO 3.9)?

	yes	no
(a) capacity booking requests?	X	
(b) other requests?	Х	

2.20 If the answer is "no", please provide details (GGPSSO 3.9)

II.G.		

#### Storage capacity allocation and congestion management

2.21 Does the storage capacity allocation mechanism applied by the SSO meet all the requirements below (GGPSSO 4.1):

tick

(a)	it facilitates the development of competition and liquid trading of storage capacity (GGPSSO 4 1 a)	X
(b)	it is compatible with market mechanisms including spot markets and trading hubs (GGPSSO 4 1 a)	Х
(c)	it does not create undue barriers to market entry (GGPSSO 4.1 c)	Х
(d)	it does not prevent new market entrants and companies with a small market share from competing effectively (GGPSSO 4.1 c)	Х
(e)	it does not prevent customers from changing suppliers at any time of the year (GGPSSO 4 3)	Х

2 22	If any of those	critoria (question	2.21 (a) - (e)) is not met.	nlesse evolain why	(GGPSSO 4.1)
Z ZZ	it any of these (	criteria (duestion	1 Z.Z1 (2) – (e)) is not met.	Diease explain will	16673304.11

n a		

ERGEG Letter Storage users - 2005-06-08

223	Do the congestion management procedures applied by the SSO meet all the requirements below
	(GGPSSO 4.2):

(a) they facilitate the development of competition and liquid trading of storage capacity (GGPSSO 4 1 a)

(b) they are compatible with market mechanisms including spot markets and trading hubs (GGPSSO 4 1 a)

(c) they do not create undue barriers to market entry (GGPSSO 4.1 c)

(d) they do not prevent new market entrants and companies with a small market share from competing effectively (GGPSSO 4 1 c)

(e) they do not prevent customers from changing suppliers at any time of the year (GGPSSO 4 3)

2.24	If any of these criteria (question 2.23 (a) – (e)) is not met, please explain why (GGPSSO 4.2)						
	n.a.						

#### Transparency requirements

2.25	Does the SSO	provide	you wi	th sufficient	and t	imely	information	in	order	to	gain	effective	and
	efficient access	s to stora	ge (GGI	PSSO 6.5)?									

•	yes	no
	Х	

2.26 If the answer is "no", please explain why (GGPSSO 6.5)

i n.a.		

2.27 Have you ever made a request to the SSO not to publish some information (please specify which data), because it would harm your commercial interests (GGPSSO 6.2)? 2

[confidential]		

<sup>&</sup>lt;sup>2</sup> answers to this question will be treated as confidential

regulated		
Do you think that the tariff structure of the SSO promotes efficient comstorage (GGPSSO 7.1.d)?	ımercialisation ar	nd u
Storage (Ger Gee Farial).	yes	
n.a.

## Storage penalties

Where they are established, storage penalties (GGPSSO 8.2)	. 1	tick
(a) are proportionate		Х
(b) do not hamper the entry of new participants into the market		Χ
(c) are cost-reflective, to the extent possible, whilst providing incentives for the appropriate use of storage capacity		Х
If any of these criteria (question 2.34 (a) $-$ (c)) is not met, please explain why (0	3GPSSO 8.2	2)
n.a.		
ndary market		
What kind of services can be traded on the secondary market (GGPSSO 9.1) ?		
	yes	
What kind of services can be traded on the secondary market (GGPSSO 9.1)?  (a) standard bundled units (SBUs)	yes X	Ţ
(a) standard bundled units (SBUs)		
(a) standard bundled units (SBUs)		
(a) standard bundled units (SBUs)		
(a) standard bundled units (SBUs)  (b) unbundled services		
(a) standard bundled units (SBUs)  (b) unbundled services	X	
(a) standard bundled units (SBUs)  (b) unbundled services	X	
(a) standard bundled units (SBUs)  (b) unbundled services  Do you trade storage capacity on the secondary market (GGPSSO 9)?	X	
(a) standard bundled units (SBUs)  (b) unbundled services	yes X	
(a) standard bundled units (SBUs)  (b) unbundled services  Do you trade storage capacity on the secondary market (GGPSSO 9)?  If not, please state why (GGPSSO 9)?	yes X	
(a) standard bundled units (SBUs)  (b) unbundled services  Do you trade storage capacity on the secondary market (GGPSSO 9)?	yes X	
(a) standard bundled units (SBUs)  (b) unbundled services  Do you trade storage capacity on the secondary market (GGPSSO 9)?  If not, please state why (GGPSSO 9)?	yes X	
(a) standard bundled units (SBUs)  (b) unbundled services  Do you trade storage capacity on the secondary market (GGPSSO 9)?  If not, please state why (GGPSSO 9)?  (a) not possible	yes X	

2.39 Please provide details on how secondary trading of storage capacity is facilitated by the SSO (GGPSSO 9.1)

SSO facilitates trading of secondary capacity where the purchaser of the secondary capacity is a qualified storage user.

#### **Interoperability**

2.40 Does your SSO ensure interoperability between the storage system and the transmission system (GGPSSO 10.1)?

tick

(a)	services offered are consistent with those offered by the adjacent TSO	Х
(b)	operational procedures, such as nominations, are compatible with those of the adjacent TSO	Х
(c)	re-nomination procedures meet market participants' requirements	Х
(d)	relevant storage arrangements are matched in consistency with the balancing requirements of the adjacent transmission system	Х
(e)	other	

2.41	If any of this item (question 2.40 (a) - (e)) is not met, please provide comments based on you
	experience (GGPSSO 10.1)

n.a.	•
