

WFER

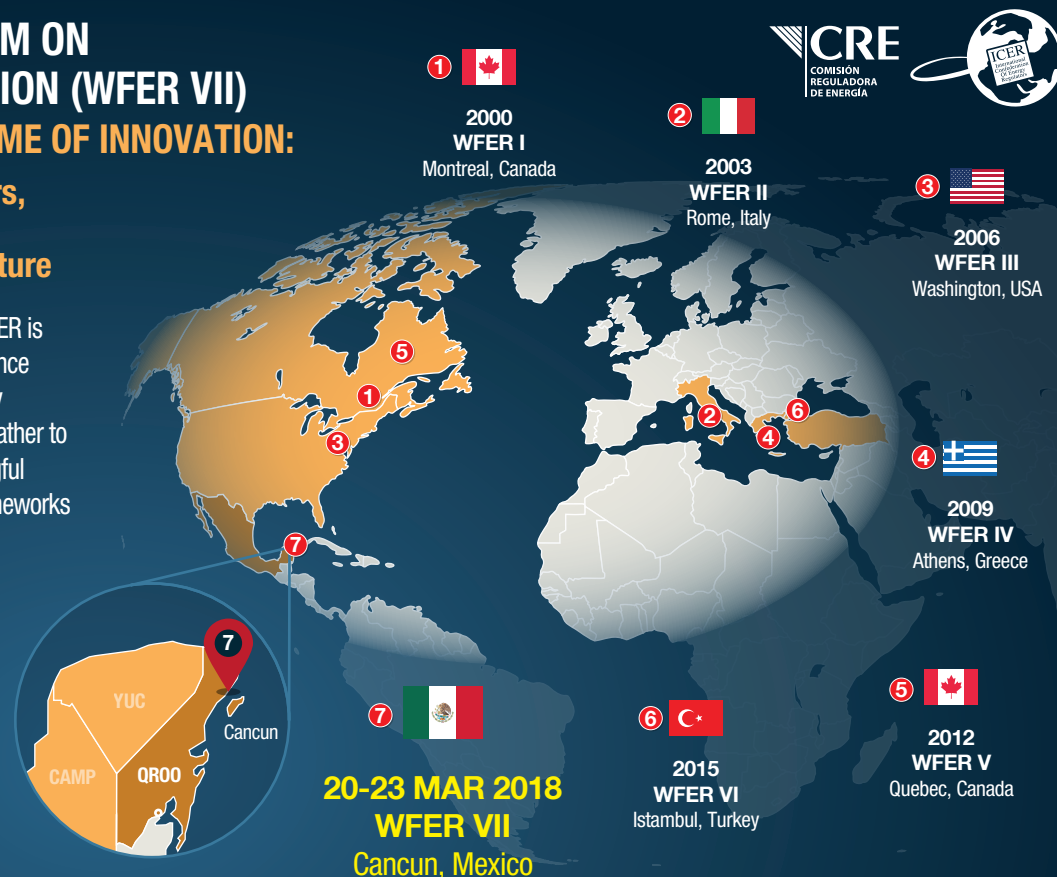

México 2018

MEXICO WANTS TO SHARE THE BENEFITS FROM THE
ENERGY REFORM
AND RESULTS FROM THE NATIONAL ENERGY INDUSTRY TRANSFORMATION

THE WORLD FORUM ON ENERGY REGULATION (WFER VII) REGULATING IN A TIME OF INNOVATION:

**Empowered consumers,
dynamic markets and
sustainable infrastructure**

Held once every three years, WFER is the leading international conference on energy regulation. Key energy players from all over the world gather to engage in strategic and meaningful conversations on regulatory frameworks and best practices.

Goals

Gender Perspective: To enrich the forum by including in all conversations some of the most powerful female voices in the energy sector.

Global Reach: To present a diverse and multicultural group of experts, making sure every region is represented and both developed and developing perspectives are heard.

Sectorial Balance: To include in different sessions key players from diverse backgrounds to discuss how innovations are currently transforming the fundamentals of the entire energy value chain.
