WHAT IS THIS WORKSHOP ABOUT?

CEER is committed to supporting its Members and Observers in their daily work. As part of these efforts and following the request of some NRAs to be introduced to NRAs' Public Engagement, the CEER Training Academy is organising an internal workshop for CEER Members which aims to share information about CEER's function, its activities, projects, international cooperation, its Work Plan for 2023 and strategy, as well as how to get more involved in CEER activities.

The workshop will start with an introduction of CEER and ACER history to provide an overview of their governing bodies, how they function, their missions, what distinguishes them, and a general overview of important procedures.

Colleagues from CEER's Secretariat will introduce the Secretariat itself and its role. They will explain how any NRA staff member can become an active member of CEER, why it matters and how this can be beneficial for NRA staff:

- benefitting from training opportunities;
- possibility for advocacy at the EU level;
- access to international data;
- sharing experiences among NRAs;
- professional visibility for the NRA employee through speaking opportunities;
- networking opportunities;
- participation in international projects, often with remuneration and/or paid travel
- NRA-specific questionnaires;
- access to the Legal Affairs Committee for individual European legal questions;
- information on EU legislative developments relevant for NRAs, etc.

Participants will be asked to share their experience with CEER and point out expectations and suggestions for improving the joint cooperation with the Secretariat and among Members. Knowing better how CEER works, how to get more involved and how to become an active Member is essential to give a voice to all NRAs when cooperating at the European level with other regulators, European Institutions and involved stakeholders.

Who should attend

CEER Members/Observers staff. ACER employees are also welcome at this workshop, as it may be interesting and useful for them to better understand how CEER works. However, this workshop is not open to other organisations.

Logistical Details

- **Format:** Online
- **Days of event:** Half-day
- **Event hours:** 3.5
- **Course fees:** Free of charge
- **Language:** English
