

CEER Webinar on Enabling Biomethane Integration in Europe's Gas Markets

Thursday, 4 December 2025, 13:00 - 14:00 CET
Online

This webinar will present the findings of CEER's new report "*NRA's Reflections on Enabling the Injection and Access to the Wholesale Market of Biomethane*", which analyses how several EU Member States are implementing the Gas Decarbonisation Package, with a focus on network access, connection costs, tariff discounts, and biomethane trading arrangements.

The session will highlight good practices, remaining barriers, and the regulatory measures needed to enable a harmonised EU approach to biomethane integration.

Opening Remarks and Keynote Speech (5 mins)

Biomethane plays a central role in Europe's decarbonisation pathway, with the REPowerEU target of 35 bcm by 2030. CEER's new report assesses early implementation of the Gas Decarbonisation Package and identifies regulatory measures to support efficient, non-discriminatory, and market-based biomethane integration.

- **Pedro Verdelho**, Chair of the Gas Working Group, **CEER**

Presentation of the CEER Biomethane Report (15 mins)

This section will provide an overview of the report's key findings and recommendations, covering:

- Access of biomethane to the wholesale market
- Connection fees and cost-sharing models
- Tariff discounts for injection and cross-border flows
- Trading arrangements, including Guarantees of Origin and Proofs of Sustainability

- **Markus Krug**, RGS Work Stream Co-Chair, **CEER**

Stakeholder reactions (20 mins)

Experts and policymakers will respond to the report's findings and share their perspectives on the regulatory, technical, and market challenges related to biomethane scale-up.

- **Alexander Dusolt**, Policy Officer, **DG ENER**

Reflections on the Gas Decarbonisation Package and next steps for enabling biomethane deployment.

- **Joana Appleton**, Director of Risk, Internal Control, ESG, and Stakeholders at Floene, **GD4S**

A DSO perspective on biomethane connection, grid planning, measurement, and operational challenges.

Q&A and Closing remarks: Raphael Hanoteaux, Deputy Secretary General, **CEER**
